CENTURYSTONE

Solid Surface Bath & Shower

The initial success of *CenturyStone*™ has been so fantastic that we are now offering it as an option for most of our gelcoat models. Please check with customer service for specific model availability. We are very proud of this innovative new process that allows us to manufacture products never before available in the bathware industry.

CenturyStone™ by Hamilton Bathware is a complete line of affordable luxury bathware that has been designed to make solid surface more beautiful, more versatile and more affordable than previous solid surface materials. *CenturyStone*™ is truly the affordable solid surface alternative.

CenturyStone™ is manufactured incorporating *Granicoat*® by the Safas Corporation. *Granicoat*® is a patented, award-winning solid surfacing material that has been tested and proven in similar applications for almost a decade.

CenturyStone™ is available in fourteen popular colors (9 granite and 5 solid) as standard stocking colors, ready for normal delivery production. It is also available as non-standard colors (75 granite, 7 solid & 10 accent) as well as many matching popular name brand solid surface products including *Corian*™, *Swanstone*™. *CenturyStone*™ also has the ability to formulate unlimited custom colors & designs, perfect for the customer with a special and unique project. The *CenturyStone*™ brochure has a color chart for you to see a representation of the stocking standard colors. Color matching is available; lead-time and price for non-stock colors may be obtained from customer service.

CenturyStone™ surface features the same characteristics & properties of the traditional solid surface sheets less the unsightly seams. That's right, **seamless solid surface bathware** that is both elegant and affordable!

- √ Stain & corrosion resistant
- √ UV Stabilized
- √ Fire Retardant
- √ Non-Porous
- √ Bacteria & Fungi resistant
- √ Impact resistant
- √ Renewable satin finish

Some of the advantages *CenturyStone*™ bathware manufactured with *Granicoat*® has over the traditional solid surfacing sheets are:

- √ Seamless
- √ Light in weight
- √ Much more forgiving against shocks & movement
- √ Thermal shock resistant application
- √ Bacteria & Fungi resistant

√ *Granicoat*® a superior material in comparison to gelcoat and cultured marble. The luxurious finish is easy to maintain and is suitable for sanitary areas because it is bacteria and fungi resistant.

√ *Granicoat*® cost of material is up to 66% less than the traditional solid surface, cultured marble and mud set tile applications.
